

# Electrical Engineering

Innovating Infrastructure | Engineering Trust | Delivering Brilliance

# Who We Are

Snap Solutions & Project India Pvt. Ltd. is a trusted EPC and ME solutions provider with over 18 years of experience in delivering high-performance turnkey electrical projects across India and Africa. We specialize in electrical systems, solar energy, and infrastructure development - backed by a skilled in-house team, advanced technology, and deep project execution expertise.

## Sectors Served:

Infrastructure | Railways | Manufacturing | Healthcare | Government | Education Institutions  
Data Center | Industries

To simplify project delivery through a single-window, professionally managed system ensuring timely and high-quality execution.

We partner with industry leaders, driven by skilled teams, innovation, and integrity.

Our goal is to exceed client expectations and launch an IPO within four years to scale our impact.

To become a leading public limited company in turnkey mechanical, electrical, and solar project execution-known for precision, timeliness, and quality. Our goal is to be the preferred partner for infrastructure and industrial projects across India and globally. We aim to launch an IPO within four years to drive growth and set industry benchmarks.

**Ownership & Integrity**

We act responsibly, honestly, and ethically-owning every outcome.

**Customer-Centric Excellence**

We prioritize client satisfaction through quality, precision, and clear communication.

**Continuous Improvement**

We embrace learning, feedback, and innovation to grow with every project.

**Collaboration & Transparency**

We build a culture of teamwork, openness, and accountability.

**Commitment & Accountability**

Say it. Do it. Own it-every task, result, and impact.

# LT/HT Panel Systems

- Custom-engineered Main LT Panels, PCCs, MCCs, APFC, AMF & DG Sync Panels
- Fabricated from high-quality rust-resistant steel
- Tested for safety, endurance, and electrical performance

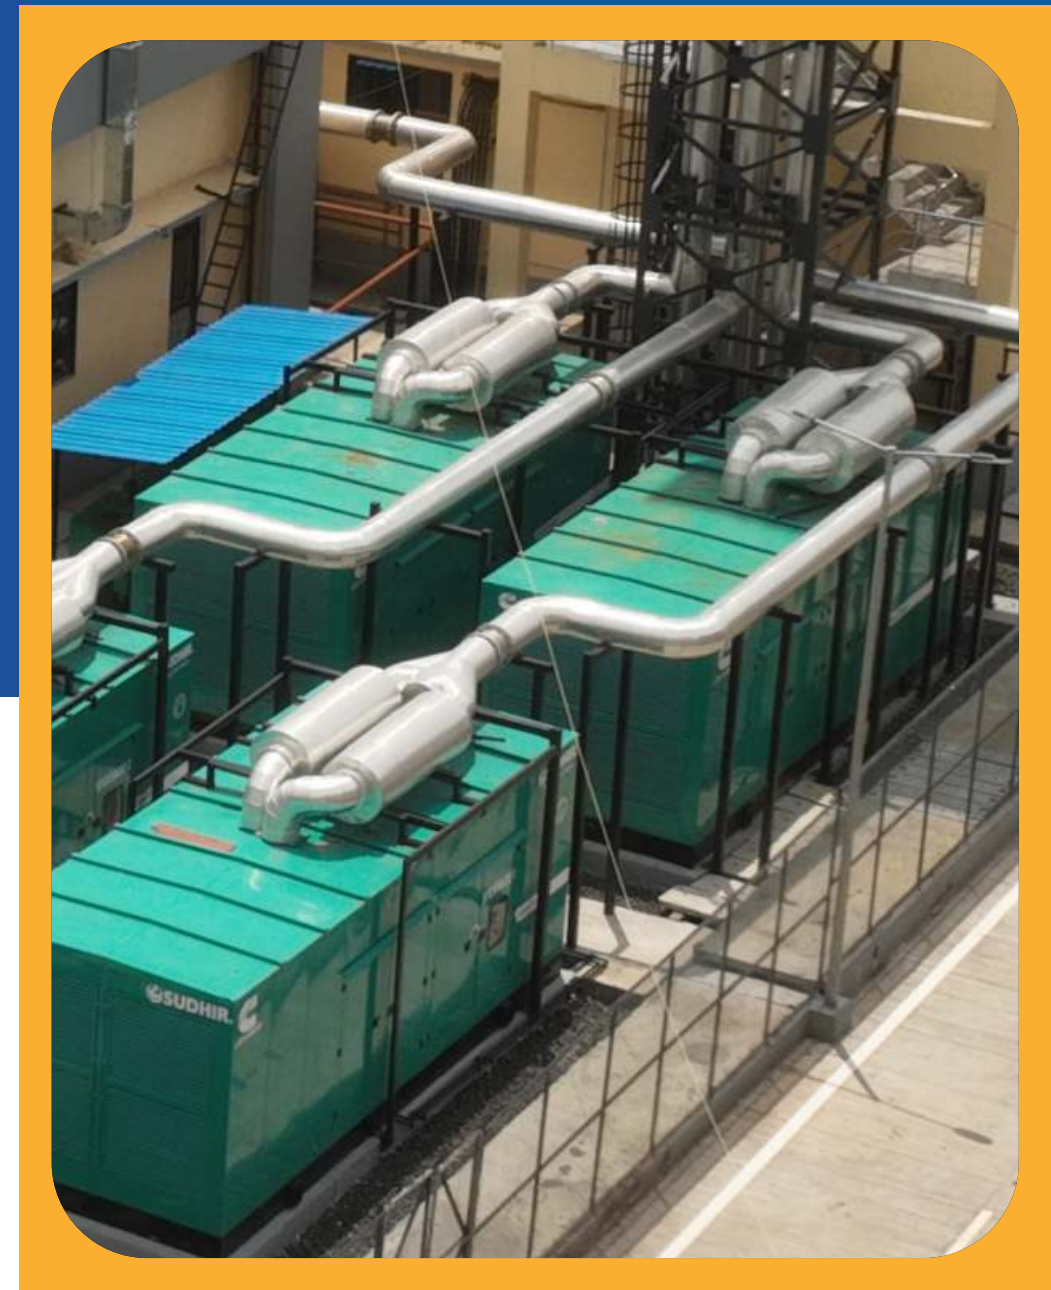

# Cabling, Lighting & Switchgear

- LT & HT cable laying with precision routing and terminations
- Intelligent lighting solutions for commercial, industrial & public spaces
- Complete switchgear systems with fail-safe protection & control

# DG Set Installations & Exhaust Systems

- SITC of DG sets from 82.5 KVA to 3000 KVA
- 30-meter exhaust stack fabrication & integration
- Exhaust piping, cabling, cable trays, synchronization & grounding
- HSD Yard and Fuel Piping with Automation

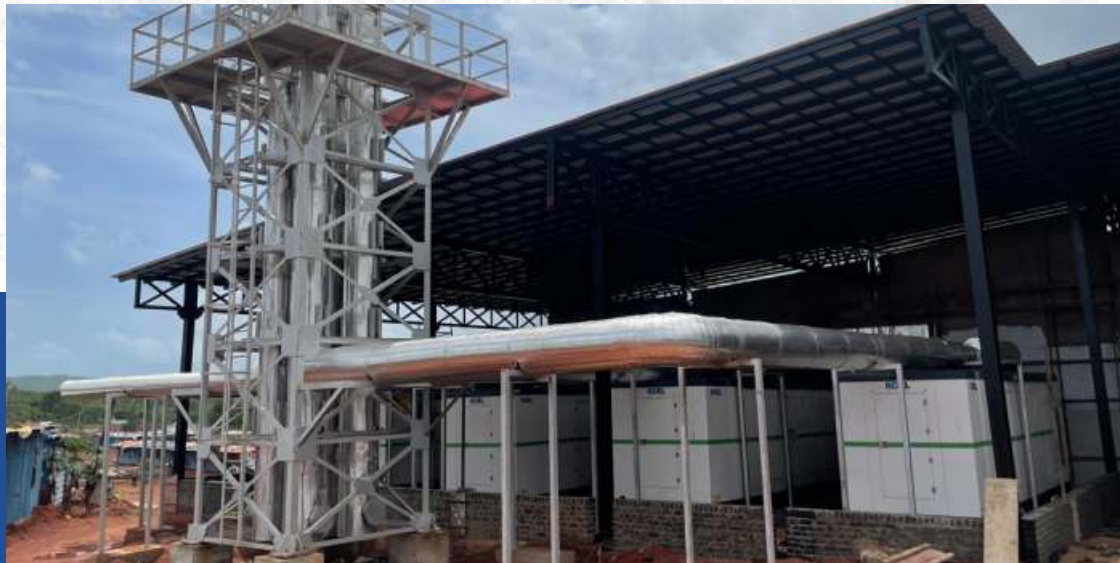

# Earthing & Lightning Protection

- Maintenance-free earthing with low resistivity
- High-performance lightning arrestors
- Long service life, easy deployment, reliable fault mitigation

# Our Execution Model

- In-house teams: Engineers, Quality Assurance, HSE, planners
- No subcontracting – complete project ownership
- Weekly reports, milestone tracking, and digital dashboards
- Agile, fast-track delivery with centralized control

# Performance Metrics

- 10,00,000+  
Meters of Cable Laid
- 5,000+  
DG Sets Commissioned
- 500+  
Panels installed across projects
- 98.6%  
on-time delivery record
